UNAUDITED INTERIM RESULT

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

The principal means of information dissemination on GEM is publication on the internet website operated by the Stock Exchange. Listed companies are not generally required to issue paid announcement in gazetted newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website in order to obtain up-to-date information on GEM listed issuers.

The Stock Exchange of Hong Kong Limited takes no responsibility for the contents of this announcement, makes no representation as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.

This announcement, for which the directors of B & B Group Holding Limited collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the Growth Enterprise Market of the Stock Exchange of Hong Kong Limited for the purpose of giving information with regard to B & B Group Holding Limited. The directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief:– 1. the information contained in this announcement is accurate and complete in all material respects and not misleading; 2. there are no other matters the omission of which would make any statement in this announcement misleading; and 3. all opinions expressed in this announcement have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

1 Basis of preparation and accounting policies

The accounts are prepared in accordance with Hong Kong Accounting Standards (“HKAS”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and the disclosure requirements of the Rules Governing the Listing of Securities on the Growth Enterprises Market of the Stock Exchange of Hong Kong (“the GEM Listing Rules”).

The accounts have been prepared under the historical cost convention.

The accounting policies and methods of computation used in the preparation of these accounts are consistent with those used in the annual accounts for the year ended 30 June 2005 except that the Group has changed certain of its accounting policies following its adoption of new/revised Hong Kong Financial Reporting Standards and Hong Kong Accounting Standards (“new HKFRS”) which are effective for accounting periods commencing on or after 1 January 2005.

The changes of the Group’s accounting policies and the effect of adopting these new policies are set out below.

Business Combination

The adoption of HKFRS 3 has resulted in a change in the accounting policy relating to the discontinuation of amortisation of goodwill arising on acquisitions. Goodwill will be tested for impairment at least annually. Goodwill arising on acquisitions after 1 July 2005 is measured at cost less accumulated impairment losses (if any) after initial recognition. In prior years, goodwill was capitalised and amortised over its estimated useful life. As a result of this change in accounting policy, no amortisation of goodwill has been charged in the current period. Comparative figures for the corresponding period have not been restated.

Share-base Payments

The adoption of HKFRS 2 has resulted in a change in the accounting policy for employee share option benefits. Until 30 June 2005, the provision of share options to employees did not result in an expense in the profit and loss account. Effective on 1 July 2005, the Group expenses the cost of share options in the profit and loss account.

The group has taken advantage of the transitional provisions set out in paragraph 53 of HKFRS 2 under which the new recognition and measurement policies have not been applied to the following grants of options:

- (a) all options granted to employees on or before 7 November 2002; and
- (b) all options granted to employees after 7 November 2002 but which had vested before 1 January 2005.

No adjustments to the opening balances as at 1 July 2005 are required as no options existed at that time which were unvested at 1 January 2005.

2. Turnover and revenue

Turnover represents the net invoiced value of the goods sold, after allowances for returns and trade discounts excluding value-added tax and business tax. Other revenue represents mainly interest income.

3. Segment information

During the period, since the Group is principally engaged in the manufacture and sales of natural supplementary products, the directors consider that the Group operated within a single business segment. Accordingly, no business segment information is presented.

Financial Performance

For the six months ended 31 December 2005, the Group’s unaudited consolidated turnover and net profit attributable to shareholders are approximately HK\$44.06 million (2004: HK\$107.89 million) and HK\$12.1 million (2004: HK\$19.90 million) respectively. Gross profit ratio was approximately 40.0% for the six months period under review (2004: 23.5%).

The decrease in turnover was due to the decrease of sales of edible oil, which was in turn due to the keen competition in the market, especially the People’s Republic of China (the “PRC”). The decrease also accounted for the increase in overall gross profit ratio as the gross profit of edible oil trading is less than other businesses of the Group.

The decrease in net profit attributable to shareholders was due to that there was other revenue of approximately HK\$5.7 million which was mainly a gain on disposal of subsidiaries in last year.

Financial resources and liquidity

As at 31 December 2005, the Group enjoyed a healthy financial position, with cash and bank balance of approximately HK\$163,384,000 (30 June 2005: HK\$167,250,000). It is an on-line system that real-time registers every traditional social welfare lottery tickets that is issued within the province.

Future Outlook and Prospects

Traditional Lottery sales in the PRC has shown a very fast growth trend in the past years. Bozone is one of the few service providers within the lottery industry in the PRC, the management of the Company believes that the strategic acquisition into Bozone, would provide the Company a solid foundation in entering into this new business segment. Since the revenue model of Bozone is mainly based on a percentage of the lottery sales recorded on the system, the strategic acquisition will well position the Company in capturing the growing market. This business development can broaden the Company revenue base while at the same time opens up high growth potential for the Company.
