ANNUAL RESULTS ANNOUNCEMENT FOR THE YEAR ENDED 30 JUNE 2016

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

*This announcement, for which the directors (the “**Directors**”) of China Vanguard Group Limited (the “**Company**”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the GEM of Stock Exchange (the “**GEM Listing Rules**”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this announcement is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this announcement misleading.*

1. GENERAL

The Company was incorporated in the Cayman Islands as an exempted company with limited liability and its shares are listed on the GEM. The Company's registered office is located at Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman KY1-1111, Cayman Islands and its principal place of business is located at Units 307-313, 3/F., Wireless Centre, Phase One Hong Kong Science Park, Pak Shek Kok, New Territories, Hong Kong.

The Company is an investment holding company. The principal activities of its subsidiaries are (i) provision of lottery-related services (ii) land and property development, trading and consulting services, and (iii) others.

2. BASIS OF PREPARATION

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA, accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. These financial information also comply with the applicable disclosure provisions of the GEM Listing Rules.

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments, which are measured at revalued amounts or fair values, as appropriate. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

The consolidated financial statements have been prepared on a going concern basis, the Group had incurred a loss attributable to shareholders of approximately HK\$206.8 million for the year ended 30 June 2016, net current assets of approximately HK\$4.3 million as at 30 June 2016 and the convertible bonds with principal amount of approximately HK\$89.6 million due on 17 January 2017. These conditions indicate the existence of a material uncertainty which may cast significant doubt about the Group's ability to continue as a going concern. In preparing the consolidated financial statements, the directors of the Company have carefully reviewed the Group's cash position as at the end of the reporting period. In reviewing the Group's cash flows, the directors of the Company have considered the following factor:

A major and controlling shareholder confirms that fund, if required, will be made available to the Company through shareholder' loans to meet the present and future cash flow requirement from operation and settlement of its outstanding obligations.

The directors of the Company believe that the Group is able to meet its financial obligations in full as and when they fall due and consider that the preparation of the consolidated financial statements on going concern basis is appropriate.

3. APPLICATION OF NEW AND REVISED HKFRSS

10. (LOSS)/EARNINGS PER SHARE ATTRIBUTABLE TO EQUITY HOLDERS OF THE COMPANY

The calculation of the basic and diluted (loss)/earnings per share attributable to the ordinary equity holders of the Company is based on the following data:

	Year ended 30-6-2016 <i>HK\$'000</i>	Year ended 30-6-2015 <i>HK\$'000</i>
(Loss)/profit for the year attributable to the equity holders of the Company	<u><u>(206,778)</u></u>	<u><u>19,107</u></u>

Weighted average number of ordinary shares for the purpose of diluted earnings per share	<u><u>3,507,280</u></u>	<u><u>3,325,423</u></u>

For the year ended 30 June 2016, outstanding convertible bonds of the Company are anti-dilutive (Year ended 30 June 2015: dilutive) since their exercise or concession would result in a decrease in loss per share (Year ended 30 June 2015: decrease in earnings per share).

11. TRADE AND OTHER RECEIVABLES AND PREPAYMENTS

	30-6-2016 <i>HK\$'000</i>	30-6-2015 <i>HK\$'000</i>
Trade receivables	78,714	77,388
Other receivables and prepayments	<u>43,936</u>	<u>74,164</u>
	122,650	151,552
Less: Allowances for doubtful receivables	<u><u>(46,539)</u></u>	<u><u>(74)</u></u>
	<u><u>76,111</u></u>	<u><u>151,478</u></u>

Payment terms with customers are mainly on credit. Invoices are normally payable within 30 to 180 days of issuance. The following is an aged analysis of trade receivables at the end of reporting period:

	30-6-2016	30-6-2015
	<i>HK\$'000</i>	<i>HK\$'000</i>
0 to 30 days	3,077	13,088
31 to 60 days	13,788	5,143
61 to 180 days	13,164	46,371
181 to 365 days	34,918	12,617
Over 1 year	13,767	169
	<hr/> 78,714 <hr/>	<hr/> 77,388 <hr/>

The trade receivables with carrying amount of approximately HK\$5,321,000 (30-6-2015: approximately HK\$51,740,000) are neither past due nor impaired at the reporting period.

The Group has policies for allowances of doubtful receivables which are based on the evaluation of collectability and age analysis of accounts and on the management's judgement including the credit worthiness, collaterals and the past collection history of each customer.

During the year ended 30 June 2016, the Group made an allowance of approximately HK\$40,000,000 (Year ended 30-6-2015: Nil) in respect of trade receivables, which was past due at the reporting date with long age and slow repayments were received from respective customers since the due date.

Movement in the allowances for doubtful receivables:

	30-6-2016	30-6-2015
	<i>HK\$'000</i>	<i>HK\$'000</i>
Balance at the beginning of the year	74	74
Add: Addition for the year	46,465	–
	<hr/> 46,539 <hr/>	<hr/> 74 <hr/>

In determining the recoverability of the trade receivables, the Group considers any change in the credit quality of the trade receivables from the date credit was initially granted up to the reporting date. The trade receivables past due but not provided for were either subsequently settled as at the date of this announcement or no historical default of payments by the respective customers. The concentration of credit risk is limited due to the customer base being large and unrelated. Accordingly, the directors believe that there is no further credit provision required in excess of the allowance for bad and doubtful debts.

MANAGEMENT DISCUSSIONS AND ANALYSIS

Business Review

Lottery Operations

The Group is a comprehensive lottery solution provider of end-to-end hardware and software solutions, downstream channel management services and marketing promotion to Sports Lottery and Welfare Lottery Centres in 22 provinces and regions in the PRC.

New Business

The Group has continued its course to develop its lottery operations and during Year 2016, we are delighted to introduce two new business models to enrich the services and products pertaining to lottery operations.

- 1) Yao Cai (“搖彩”) is an interactive in-store marketing solution that has adopted our proprietary Bluetooth low energy hardware device. It will offer incentive-based consumer mass marketing promotions services, utilizing WeChat (“微信”) through the “Shake” (“微信搖一搖”) function as well as unique QR code. This solution is applicable to all physical distribution outlets, and is aimed to broaden the consumer base through interactive marketing activities to enhance the consumers’ engagement level and satisfaction. During Year 2016, the Group has successfully signed with three provincial and regional Sports Lottery Issuance Centres, including Liaoning, Shenzhen and Gansu, on Yao Cai and has started off trial runs in selected locations.
- 2) Out-of-home (“OOH”) advertising and information dissemination system which is based on LED display panel, not only modernizes and digitizes the marketing and lottery information dissemination, but also improves the efficiency and the image of the lottery distribution outlets. This business generates revenue through rental income while also enables us to operate OOH advertising as permitted. In Year 2016, the Group has successfully contracted with two provincial Sports Lottery Issuance Centres, including Anhui and Liaoning, and as at the date of this announcement, the operation team has already implemented the systems as contracted.

The proprietary technology behind the above solutions has won us both the Gold Medal of its category in the 44th International Exhibitions of Inventions of Geneva and the special award from the Association “Russian House for International Scientific and Technological Cooperation”. The Group shall ride on its existing coverage over the 22 provinces and regions and shall strive to rollout these innovative solutions into various provinces in the PRC.

Key Strategic Moves

In August 2015, the Group entered into a strategic cooperation agreement with All In Pay Network Services Co., Ltd. (“All In Pay”) to co-develop a full-fledged, systematic solution whereas All In Pay shall provide the Group with a tailor-made, integrated all-in-one payment and settlement solution. This is one of the moves as an on-going effort to improve the accessibility and to provide convenience to lottery customers.

In view of impending growth in the industry and the Group’s Sports Lottery related operations, the Group endeavored to realign its resources to further focus Sports Lottery business through a restructuring in January 2016 to enhance the effective utilization of its resources and achieve greater efficiency within the Group. The restructuring process is currently well underway and in process. The Group remains positive on the outlook of the Sport Lottery related services operation.

We see these strategic moves not only further strengthen the services and products the Group can provide through the collaboration with strategic partners, but also better equip ourselves to meet new opportunities.

Operation

During Year 2016, several ministerial offices through the issuance of government notices expressed their strong position with regards to the enforcement and forbidden of unauthorized lottery sales through online channels. The Group has voluntarily suspended most of our self-service lottery operations in response. The Group understands that the situation is only temporary and would like to stress that the contracts with various lottery centers are still valid and in-place. Self-service lottery is a comparatively new segment of the industry with more business opportunities, while at the same time it could be more susceptible to policy development. As a trusted partner with the lottery authorities, we continue working with them closely and actively to reactivate self-service lottery operation.

Outlook and Strategies

The board is of the view that the innovative nature of the marketing services will transform lottery consumption behavior that will be catalytic in increasing lottery sales and create a win-win situation between third-party advertisers in marketing outreach while providing new revenue streams for the Group. The interactive marketing services will contribute to

the Group's revenue through revenue share from advertising screen time on the LED display panels and share of marketing service revenue from third-party social media engagement. Going forward, our further development of interactive marketing services will advance to a precision marketing solution by offering personalized advertising services. We believe this further development would meet the demand for high end advertising. The digitalization and mobilization of modern business operations have created the need for a more efficient and measurable interactive electronic information system to facilitate data and information flow between Lottery Centres and various distribution channels. The Board is of the view that the new services offered will create a significant new revenue stream for the Group.

As we review this year's achievement and progress, I would like to take this opportunity to express our sincere gratitude towards our customers, partners, suppliers, and to our Shareholders, for your invaluable insights, catapulting our development and encouraging our teams to keep forging ahead. I look forward to your continuous feedback and partnerships in the coming years.
